JANUARY 2016

BSCNZ CLEANSWEEP<sup>™</sup> AWARDS – 19 MAY 2016

## ENTRIES OPENING SOON!

*As Hollywood are celebrating their excellence, so too will the New Zealand cleaning industry at the 2016 BSCNZ CleanSweep<sup>™</sup> Awards, to be held on the 19th of May in association with Staples. Entries will soon be open for the Awards, so now is the time to start thinking about the sites you will enter to be recognised as the best of the best. Make sure you have registered to secure a table and a seat at the Gala Dinner of the CleanNZ expo to be a part of this fantastic industry event. Our very own Oscars of the industry.*

*Here's what one winner in 2014 has to say about what a win meant for their business.*

“Being a finalist in six categories and winner in two, has helped raise the profile and brand awareness of our company. It confirmed to us and our staff that we are doing things right, and delivering cleaning services at the top level. Our staff in particular felt a great deal of pride in achieving the recognition that comes with winning a CleanSweep<sup>™</sup> award. The process was in many ways a performance review of our systems and procedures.

Being a finalist was confirmation that we are up there with the best in our industry. Our clients know they are getting value for their money and want us on board to continue to deliver the service they know is top rate.”

*Paul Emery, Managing Director,  
Total Property Services (Canterbury) Limited*

## STAPLES – DRIVING EXCELLENCE IN THE CLEANING INDUSTRY

Firstly allow me to wish all a happy and prosperous New Year! At this time of year, many of us both personally and professionally, are taking stock of the last year. What was achieved, what

was not, what habits and practices we need to quit, start and how we can do things differently in the coming year to better ourselves and our businesses. Starting the year anew, we put into action our reflections and kick into action a plan to continually improve, moving us closer to the goals or resolutions we've set. I believe this time of reflection is important as it's not often we step out of the day-to-day noise to really scrutinise the reality of ourselves or business practices. Even rarer is the opportunity to be recognised for our areas of excellence or be benchmarked alongside our peers in a way that are measurable and meaningful.

The BSCNZ CleanSweep™ Awards provides the vehicle to really reflect and review your sites, and to be recognised for the smart thinking, outstanding individuals, and best practices you have worked hard to develop in your business. Whether you are part of a corporate organisation, a business owner or site manager, entering the BSCNZ CleanSweep™ Awards represents an opportunity to find those things to start, do differently and of course to celebrate.

Since the 2014 inaugural BSCNZ CleanSweep™ Awards, we at Staples™ have been reflecting, innovating and diversifying our capabilities to offer IT savvy solutions, cost control capability and service to the BSCNZ Association members. We are very proud to be continuing on this path with each of you to consistently innovate and drive excellence in the cleaning industry through the BSCNZ CleanSweep™ Awards. We are here to support the BSCNZ and its members in any way we can and hope to see you on the podium!

*Robert Fearnley, Head of Facility Solutions  
Australia and New Zealand*
